PROJECT TITLE

DIGITAL PORTFOLIO

AGENDA

1. Problem Statement
2. Project Overview
3. End Users
4. Tools and Technologies
5. Portfolio Design and Layout
6. Features and Functionality
7. Results and Screenshot
8. Conclusion
9. Github link

1.Problem Statement

Job seekers and students often struggle to effectively highlight their skills and achievements with a simple resume. A responsive portfolio website provides a modern solution to showcase their profile in an attractive and organized way.

2. Project Overview

This project is a responsive personal portfolio website built using HTML, CSS, and JavaScript.

It includes sections such as Home, About, Education, Certificates, Projects, Skills, Resume, and Contact.

The website is designed to showcase my profile in a simple, interactive, and professional way.

3. End Users

Individuals who want to build their personal brand.

Companies or recruiters searching for skilled candidates.

Students showcasing their academic journey and projects.

Professionals who need a digital portfolio for career growth.

4. Tools and Technologies

Frontend Languages: HTML, CSS, JavaScript

Icons & Styling: Boxicons, Google Fonts

Editor / IDE: Visual Studio Code

Version Control: Git & GitHub (for hosting and code management)

Deployment: GitHub Pages

5. Portfolio Design and Layout

Clean and modern interface with a focus on simplicity.

Sections arranged in a scroll-based structure (Home → About → Education → Projects → Contact).

Responsive grid system to adjust content across devices.

Use of visual elements like icons, images, and cards for better presentation.

6. Features and Functionality

Responsive & user-friendly design

Resume and certificate showcase

Interactive navigation & contact form

7.Results and Screenshots

Responsive website developed

Profile, skills, and projects displayed clearly

Professional and interactive desig
